

## New Product Release

### Ford Flathead V8 Head Stud Kits available for immediate delivery

ARP - The world leader in fastener technology has just released two new Pro Series head stud kits for 1938-1953 Ford Flathead V8 applications equipped with Edelbrock cylinder heads. Each kit includes a set of 8740 head studs, parallel ground polished stainless washers and polished stainless acorn nuts for the ultimate "Show and Shine" look. All Pro Series 8740 studs are centerless ground, heat treated prior to thread rolling and machining, and are nominally rated at 200,000 psi. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's Pro Series head stud kits.

Part No.	Application
154-4101	1938-1948 Ford Flathead with Edelbrock #1125/26/27/28 heads ( for use with or without Edelbrock alternator bracket)
154-4102	1949-1953 Ford Flathead with Edelbrock #1115/16 heads

ARP products are available worldwide through local distributors
