

BULLY DOG

#1 IN PERFORMANCE

CUSTOM GAUGE POD MOUNTS

Our custom gauge pods have been designed to work with our PMT, GT Gas, GT Diesel, and our WatchDogs.

These custom pods offer a clean OEM-like fit for your Bully Dog performance product. These custom mounts install seamlessly. The Bully Dog Product will be easy to access and will not obstruct the drivers view of the road once installed into one of these mounts. The PMT comes with all parts and pieces that are necessary to connect to one of these custom gauge pods. Unlike the PMT, the GTs and WatchDogs require an additional part to connect to the custom mounts that is not included with in their package. The GTs and WatchDogs require the addition of the Pod Mount Adaptor.

PMT | GT | WATCHDOG

The Pod Mount Adaptor below will accommodate the installation of a gas or diesel GT or a WatchDog into any 2 1/16" standard gauge pod hole. While Bully Dog offers a custom pod mount for many vehicle applications, gaps do exist between our electronic products and Custom Gauge Pods. The Pod Mount Adaptor is perfect for use with another manufacturer's custom gauge pod, in case Bully Dog does not support a particular vehicle application with a custom gauge pod mount.

CUSTOM POD MOUNTS ON NEXT PAGE

SPECIAL NOTE:

A pod mount adaptor is required to connect the GT diesel, GT gas, or WatchDog to a custom gauge pod.

POD MOUNT ADAPTOR GT & Watchdog

PART# 30420

UPC CODE: 681018304207

PACKAGING WEIGHT: .05 lbs

PACKAGING DIMENSIONS: 7" x 4.5" x 1"

FORD F250-550 Pickups '08-'11
