Item	Description
A	Upper Right
B	Upper Left
C	Lower Right
D	Lower Left

**CUSTOMER NOTIFICATION AND DISCLAIMER LIABILITY**

This product is a modification for utility task vehicles and all terrain vehicles. Use this product at your own risk.

**Warranty and Liability Limitations.** The Buyer hereby assumes all risks associated with the use and/or installation of this product. Buyer waives all liability claims against SuperATV<sup>®</sup> of any kind or nature, including, but not limited to, liability for penalties, fines, property damage, personal injury or death, to the fullest extent permitted by law. Buyer acknowledges and agrees that SuperATV<sup>®</sup> is not liable for any direct, indirect, incidental, consequential or special damages, including but not limited to, damage, loss of life, loss of property or equipment, loss of profits or revenue, injury, or claims from any individual or entity arising from the use of this product.

The warranty for this product, if any, may give you ("Buyer") specific legal rights, and Buyer may also have other rights which may vary from state to state. The installation of this product may void or otherwise adversely affect your factory warranty.

Consult your vehicle warranty before using this Product. Under no circumstances will SuperATV<sup>®</sup> be liable for the voidance of the Buyer's vehicle warranty. Buyer assumes all risk and responsibility if a manufacturer and/or dealer voids the Buyer's vehicle warranty due to use of this Product.

**Safety and Laws.** Operate your vehicle at all times in a safe manner. You must abide by all local, state, and federal laws, including but not limited to vehicle safety, traffic laws, and ordinances. It is your responsibility to know the laws and how they apply to you. The installation of this product may violate certain local, state, and federal laws. Be advised that laws vary depending on town, city, county, state, etc. Use of this product on public streets, roads, or highways may be in violation law. The Buyer is solely and exclusively legally and personally responsible for any violation of the law by the installation or use of this product. In no case will SuperATV<sup>®</sup> be held liable if Buyer violates the law or uses the product in an unsafe manner.

The Buyer is responsible to fully understand the capability and limitations of his/her vehicle according to manufacturer specifications, warnings and instructions and agrees to hold SuperATV<sup>®</sup> harmless from any damage resulting from failure to adhere to such specifications, warnings and/ or instructions. The Buyer is also responsible to obey all applicable federal, state, and local laws when operating his/her vehicle while using this product, and the Buyer agrees to hold SuperATV<sup>®</sup> harmless from any violation thereof.

**Installation.** The installation of this product on your vehicle indicates that you have had the opportunity to inquire about applicable local, state, and federal laws and ordinances and that you have read and understand, and accept all of the terms of, this Disclaimer.

SuperATV<sup>®</sup> shall not be responsible for the proper installation, use, and service of this product. Rather, the Buyer shall be solely responsible for the installation of the product and any damage that may be done to the vehicle or vehicle components as a result of modifications made by the Buyer.

 8:00am - 7:00pm EST Friday  
 9:00am - 2:00pm EST Saturday

**Read instructions and view illustrations before beginning.**

*Thank You  
 For Choosing*

**Remove components shown from each side of machine. Keep all components.**

- Install provided Fittings.

## **PIVOT BLOCK SETTINGS**

- Place new A-Arms onto a flat surface and verify dimension shown.
- *Negative 1° camber setting is achieved when Pivot Blocks are set to this dimension.*
- See last page for additional camber information.

**\*Leave Jam Nuts loose. Tighten after final adjustments have been made.**

(Rack and Pinion shown off machine for clarity)

- Unclamp and slide Boot away from Rack and Pinion.
- Install Bushing onto Shaft.
- Resecure Boot with Wire Tie.
- Repeat steps for opposite side.

Steering Stop x 2

Wire Tie x 4

SuperATV recommends using Loc-Tite on A-Arm to Frame hardware.

- Install Lower Left (D) to Frame with stock hardware **Keep nuts loose until all final adjustments have been completed.**

- Install Upper Left (B) to Frame with stock hardware; tighten hardware.

- Secure Spindle to A-Arms. **Keep nut on Lower loose until all final adjustments have been completed.**
- Reinstall Shock to machine with stock hardware.
- Secure Tie Rod End to Spindle with stock hardware.
- Secure Sway Bar Link to Upper with stock hardware.
- Tighten all hardware.

- Reinstall Rotor and Caliper.

- Secure Brake Line to Upper with components shown. Ensure no binding or interference can occur.
- Tighten all hardware.

- Repeat steps for passenger side A-Arms.
- Reinstall Tires and check Camber settings; see last page.
- Tighten all Nuts on Lower. SuperATV recommends using Loc-Tite on Nuts.

This page DOES NOT APPLY to SKU: AA-P-RZRXP-HC-003:

## CAMBER

- Tires must have equal air pressure before making adjustments.
- Adjustments to be made after all suspension components have been completely assembled.
- Tires must not be in contact with ground when making adjustments.
- Perform adjustments in small increments.

### Adjusting Camber:

- Remove A-Arms from Frame and turn Pivot Blocks to adjust camber. Reinstall Arms.
- Lower machine and settle suspension components by rolling machine back and forth several feet at a time.
- Check settings and make small adjustments as needed.
- Each time an adjustment is made, machine must be rolled back and forth to settle suspension components.
- Once desired setting is achieved, tighten hardware completely. Loc-tite on Nuts is recommended.

**A NEGATIVE CAMBER SETTING OF 1° to 2° IS RECOMMENDED.**

### LOWER:

Too much positive camber: adjust Pivot Blocks **OUT**.

Too much negative camber: adjust Pivot Blocks **IN**.

**note: 2 full turns is 1°**

### UPPER A-ARMS:

Too much positive camber: adjust Pivot Blocks **IN**.

Too much negative camber: adjust Pivot Blocks **OUT**.

**note: 2 full turns is 1°**
