

EXECUTIVE ORDER D-541-18

Relating to Exemptions Under Section 27156
of the California Vehicle Code

Edge Products
Programmer

Pursuant to the authority vested in the California Air Resources Board by Section 27156 of the Vehicle Code; and

Pursuant to the authority vested in the undersigned by Section 39515 and Section 39516 of the Health and Safety Code and Executive Order G-14-012;

IT IS ORDERED AND RESOLVED: That the installation of the Edge Products Programmer, manufactured and marketed by Edge Products, 1080 South Depot Drive, Ogden, Utah 84404, has been found not to reduce the effectiveness of the applicable vehicle pollution control systems and, therefore, is exempt from the prohibitions of Section 27156 of the Vehicle Code for the following vehicles listed in Exhibit A.

The Edge Products programmers are designed to reprogram the FLASH memory chip located in the vehicle's ECU module and may include a display screen that informs the driver of various engine operating parameters. Emission-related data files cannot be modified by the end user.

This Executive Order is valid provided that the installation instructions for the Programmer will not recommend tuning the vehicle to specifications different from those submitted by the device manufacturer.

Changes made to the design or operating conditions of the Programmer, as exempt by the California Air Resources Board, which adversely affect the performance of the vehicle's pollution control system shall invalidate this Executive Order.

Marketing of the Programmer using any identification other than that shown in this Executive Order or marketing of the Programmer for an application other than those listed in this Executive Order shall be prohibited unless prior approval is obtained from the California Air Resources Board.

This Executive Order does not constitute any opinion as to the effect the use of the Programmer may have on any warranty either expressed or implied by the vehicle manufacturer.

This Executive Order is granted based on previously submitted emissions and OBD II test data that was generated in support of prior Edge Products Executive Orders, D-541-7, D-541-8, and D-541-10 through D-541-14. The test vehicles were a 2008 model year 6.4L Ford F-350 truck LEV II ULEV emission standards, with a measured 75 horsepower gain, 2009 model year 6.7L Dodge Ram 3500 truck LEV II ULEV emission standards, with a measured 100 horsepower gain, 2007 model year 5.9L Dodge Ram 3500 truck with a measured 114 horsepower gain, 2015 model year 6.6L GM 2500 truck LEV II ULEV emission standards, with a measured 100 horsepower gain, 2006 model year 6.0L Ford F-250 truck LEV I ULEV emission standards, with a measured 75 horsepower gain, and 2008 model year 6.6L GM 2500 truck LEV I ULEV emission standards, with a measured 117 horsepower gain.

The California Air Resources Board reserves the right in the future to review this Executive Order and the exemption provided herein to assure that the exempted add-on or modified part continues to meet the standards and procedures of Title 13, California Code of Regulations, Section 2222, et seq.

THIS EXECUTIVE ORDER DOES NOT CONSTITUTE A CERTIFICATION, ACCREDITATION, APPROVAL, OR ANY OTHER TYPE OF ENDORSEMENT BY THE CALIFORNIA AIR RESOURCES BOARD OF ANY CLAIMS OF THE APPLICANT CONCERNING ANTI-POLLUTION BENEFITS OR ANY ALLEGED BENEFITS OF THE EDGE PRODUCTS PROGRAMMER.

No claim of any kind, such as "Approved by the California Air Resources Board", may be made with respect to the action taken herein in any advertising or other oral or written communication.

Violation of any of the above conditions shall be grounds for revocation of this order. The order may be revoked only after a ten-day written notice of intention to revoke the order, in which period the holder of the order may request in writing a hearing to contest the proposed revocation. If a hearing is requested, it shall be held within ten days of receipt of the request and the order may not be revoked until a determination is made after the hearing that grounds for revocation exist.

Executed at El Monte, California, this 31 day of January 2018.

Annette Hebert, Chief
Emissions Compliance, Automotive Regulations and Science Division
