

UPGRADED CAC BOOT KIT - BLACK | 2003–2007 DODGE RAM 5.9L CUMMINS

Upgrade your intercooler connections with the Industrial Injection Upgraded Charge Air Cooler (CAC) Boot Kit for 2003–2007 Dodge Ram 5.9L Cummins trucks. This kit is engineered to outperform factory boots with reinforced materials that withstand extreme conditions.

Part Number :	227462
Fits :	Fits 2003–2007 Dodge Ram 2500 & 3500 with 5.9L Cummins
Part Type :	CAC Boot Kit
Part Brand :	Industrial Injection

PRODUCT FEATURES

- Direct replacement for stock intercooler boots
- Fits 2003–2007 Dodge Ram 2500 & 3500 with 5.9L Cummins
- Includes four 4-ply reinforced silicone boots (black)
- Rated for continuous temperatures up to 525° F
- UV resistant for long-term durability
- Heavy-duty stainless steel T-bolt clamps included
- Supports stock and performance applications

Each boot is made from high-quality, 4-ply reinforced silicone rated up to 525° F and designed to resist oil, fuel, and UV exposure—ensuring long-lasting performance even under the harshest engine bay conditions. Heavy-duty stainless steel T-bolt clamps are included for a reliable, leak-free seal at high boost levels.

If you're looking for a serious upgrade over your factory CAC boots, this is it. Built to last, tested to perform—this is the boot kit your Cummins deserves.

Made to Handle the Pressure | Built by Diesel Experts | Industrial Injection Quality
